

21 FEB 1968

MEMORANDUM FOR: Director of Security

SUBJECT : Office of Security Statistical Report  
for JANUARY 1968

1. The attached tables reflect some of the activities of certain components of the Office of Security during JANUARY 1968.

2. The statistics in the tables are compiled by the component concerned and refer to the current month.

3. The number of applicant type cases received in January reflected a 70% increase over that of the preceding month. Another factor to note was the reduction in processing time of an applicant case, that is, from 90 days to 82 days with the reduction being completely in the Personnel Security Division.

4. There was a slight decrease in the number of support manhours worked, but the field case receipts increased both in the overt and covert categories. This increase, however, is consistent with the work load pattern of FY 1967, as may be noted on the graphs contained herein.
